WHAT HOME SECURITY SHOULD BE.

PROTECTION

Every peripheral product that 2GIG manufactures communicates seamlessly with the 2GIG Control Panel. All of the peripheral sensors sold by 2GIG know what type of sensor they are, making installation faster than ever. Communication is instantaneous when programming in peripheral sensors to the 2GIG Control Panel, so you don't waste your time. 2GIG peripherals are 2GIG innovation.

AUTOMATION

With 2GIG, anyone can enjoy the luxury and convenience of home automation. The GC3 system makes it easy to control hundreds of different Z-Wave devices around your home or business including HVAC, locks, and lighting. Access them via the control panel or remotely through your interactive service provider.

CONTROL

Always be in control remotely, managing your system from a computer or any iOS, Android, Blackberry smartphone or tablet.

FUTURE-PROOF

There's no need to worry about your panel's software getting outdated. With our Over-the-Air function, your panel can be updated with the latest technology at any time.

DATE, TIME & WEATHER DISPLAY

The panel displays date, time, and up-to-date weather forecasts. Provides severe weather alerts in the event of a tornado, tsunami, or wildfire.

Innovation You Can See

2GIG Technologies manufactures the most technologically-advanced residential security and home management solutions in the industry.

Alarm.com is the industry leading technology provider of interactive security and integrated home automation, energy management and video monitoring solutions.

Together, Alarm.com and 2GIG Technologies are committed to the pursuit of convenience and control for today's modern security system users, as well as consumers seeking whole home solutions. We offer the most innovative products and services that have proven to drive customer growth and deliver lasting satisfaction
